Providers That Operate Within Kittson Healthcare

Medical service expenses for a patient are generally categorized as either hospital, clinic, or provider fees. All hospital fees for emergency medical care and other medically necessary care, including clinical care are eligible for financial assistance under this policy

The following information is provided to assist the public in understanding which provider fees are eligible for financial assistance under this policy. If this information is unclear, you may contact Patient Financial Services (“Hospital”) by calling 1-800-843-6016 or 218-843-3612 for assistance.

Hospital defines “provider” as a physician or similarly credentialed individual. Providers do not include nurses, technicians, or therapists.
